OVERVIEW

Tlemcen: Algeria's Citrus Heartland is Going Digital

- As a major citrus-producing zone, Tlemcen contributes significantly to Algeria's orange, lemon, and mandarin exports. But with rising export demand, climate pressures, and traceability requirements, traditional farming methods fall short.

Key Features

- Access to irrigated land and farming licenses from MADR
- Field planning, crop scheduling, and harvest forecasting tools
- Cold storage and traceable transport for EU and MENA export markets
- Digital records of pesticide use, irrigation cycles, and labor tasks
- Centralized data to improve decisions and reduce waste

AND MUCH MORE

ODOO ERP FEATURES FOR CITRUS FARMING
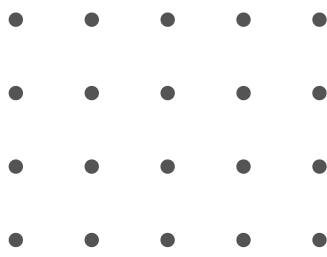

Smart Agriculture with Odoo for Tlemcen's Citrus Growers

- **Lot-Based Traceability**

Track fruits from block to batch—harvested by date, tree cluster, or region.

- **Field Task Management**

Plan and assign pruning, spraying, irrigation, and harvesting schedules.

- **Yield Prediction & Monitoring**

Use historical data to forecast output by variety and zone.

- **Input & Residue Logging**

Track usage of fertilizers, pesticides, and water to ensure compliance with export residue standards.
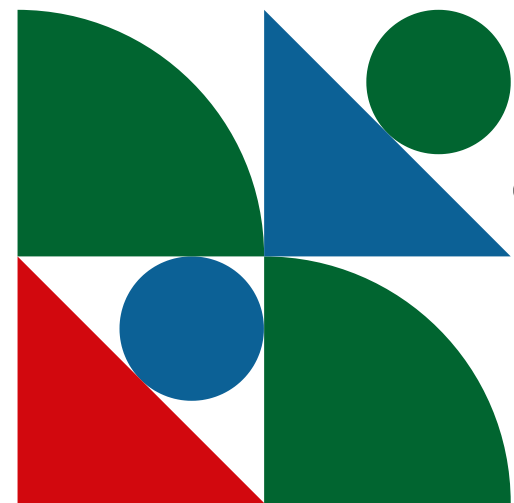

- **Export-Ready Labeling**

Generate QR-coded batch labels with origin, variety, and lot number.
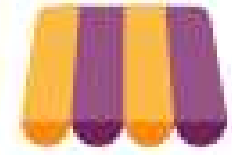

- **Financial Compliance**

Invoicing, payroll, and VAT reporting aligned with Algerian tax codes.
