OVERVIEW

Why Gafsa's Mining Sector Needs Digital Transformation

Tunisia's Gafsa region is one of the world's key phosphate hubs. Rising global demand means mining companies must move from manual systems to fully connected operations.

To work efficiently and competitively, mining operators need:

- Regulatory and safety compliance
- Continuous machinery and heavy-equipment maintenance
- Real-time stock visibility for raw and processed phosphate
- Shift and workforce coordination across remote mining zones
- Smooth logistics from extraction → processing → port transport
- Accurate production, downtime, and cost insights

A central ERP system becomes essential for efficiency, safety, and transparency — and Odoo provides that foundation.

AND MUCH MORE

ODOO FEATURES FOR PHOSPHATE MINING

What Odoo Brings to Mining Operations

Inventory: Live stock tracking for raw phosphate, finished material, spare parts, tools, and consumables.

Manufacturing (MRP): Monitor extraction, processing cycles, batch yields, and production accuracy.

Maintenance: Preventive and corrective maintenance for excavators, crushers, conveyors, and fleets.

Fleet: Track vehicles, fuel use, driver logs, load movement, and maintenance records.

Projects & Timesheets: Manage on-site operations, shifts, and team productivity.

Accounting: Automate cost sheets, invoices, vendor bills, and financial reporting.

Quality: Inspection checkpoints at extraction, washing, drying, loading, and dispatch.

IoT Integration: Sensors for conveyor speed, machine alerts, vibration, and downtime detection.

HOW ZOLUTE HELPS TUNISIA'S MINING COMPANIES

Your Odoo Partner for Heavy-Industry Mining

Mining-Specific Odoo Setup

We configure Odoo for extraction plans, machine logs, spare-parts control, yard management, and dispatch flows.

Local & Industry Understanding

Experience in North African industries ensures alignment with Tunisia's mining processes.

Automation for Equipment & Inventory

Full tracking of spare parts, machinery health, stock movements, and phosphate traceability.

Mining KPIs & Dashboards

Custom analytics for production tons/hour, uptime, fuel use, loading delays, and shipment status.

Integrations & Support

Connect Odoo with GPS trackers, equipment sensors, logistics systems, and provide team training + long-term support.

Zolute helps Gafsa's phosphate operators move to modern, efficient, and compliant mining operations powered by Odoo.
