OVERVIEW

Why Oujda's Weaving Sector Needs Modernization

Oujda's weaving units are critical to Morocco's textile exports, but rising global expectations demand speed, transparency, and consistent quality.

To stay competitive, weaving businesses need:

- Accurate yarn planning and dye batch management
- Continuous loom utilization and machine scheduling
- Traceability from yarn → weaving → finishing
- Cost control, waste reduction, and precise costing
- Reliable order updates for wholesalers and exporters

Modern weaving is no longer manual — it requires automation, analytics, and integrated workflows to scale sustainably.

AND MUCH MORE

ODOO FEATURES FOR WEAVING & TEXTILES

What Odoo Brings to Mining Operations

Manufacturing (MRP):

Loom scheduling, job orders, real-time production tracking.

Inventory:

Yarn stock, dye batch traceability, automated reordering.

Quality Module:

QC points at weaving and finishing, defect logging, inspection dashboards.

HOW ZOLUTE HELPS MOROCCO'S WEAVING UNITS

Your ERP Partner for Oujda's Textile Growth

Industry-Specific Odoo Setup

Workflows for yarn procurement, dyeing, loom allocation, finishing, and dispatch.

Local Understanding

Experience with North African textile units ensures alignment with Oujda's processes.

Custom Dashboards

Daily output, loom efficiency, waste %, costing, and delivery tracking.

End-to-End Automation

Automated job orders, QC steps, reordering, and stock updates.

Integrations & Support

Barcode systems, weighing scales, inspection tools, plus full training and ongoing support.

Zolute enables Oujda's weaving companies to move from manual coordination to high-speed, data-driven operations.
